LOCALLY GROWN PLANTS

And Their Advantage to You—

We have been growing plants in Spring-
field for the past 15 years and have found
that locally grown plants do much better
than imported ones. Our plants have
been transplanted several times and are
acclimated to our growing zone. Plants
shipped in, too often have not been trans-
planted and do not have sufficient roots
and have been allowed to dry out during
delivery period.

For live, healthy, fresh-dug plants
visit our Nursery today—make your se-
lection from our fields.
